City of Cleveland Recycling Program

Recycling Facts

- The average person generates over 4 pounds of trash every day and about 1.5 tons of solid waste per year.
- Americans throw away 2,500,000 plastic bottles every hour.
- Recycling one plastic bottle can save enough energy to light a 60-watt light bulb for 6 hours.
- Recycling one aluminum can saves enough energy to listen to a full album on your iPod or to run a TV for 2 hours.
- Recycling 100 cans could light your bedroom for two whole weeks.
- It takes over 500 years for an aluminum can to decompose. It takes over 700 years for a plastic bottle to decompose.
- If every American recycled just one-tenth of their newspapers, we could save about 25 million trees each year.
- Recycling just 500 phone books could save 7,000 gallons of water.
